

PAVEL SAJDA PORTFOLIO - CHAPTER THREE:

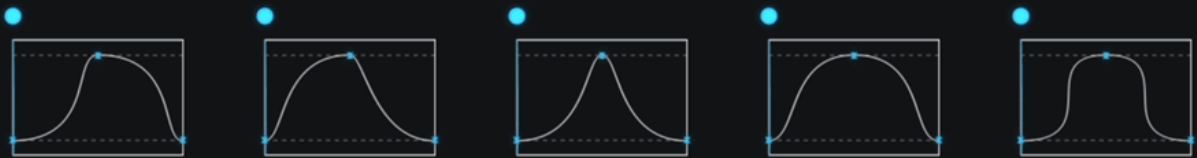

MOTION GRAPHICS

Motion graphics focus on animating visual media.
This includes everything from typography to imagery, and everything in between.
My experience with animation covers:

WEB ANIMATION, PARALLAX, VIDEO ANIMATION

EXAMPLES

Web Animation

Loaders, fades, transitions, scrolling, moving objects...

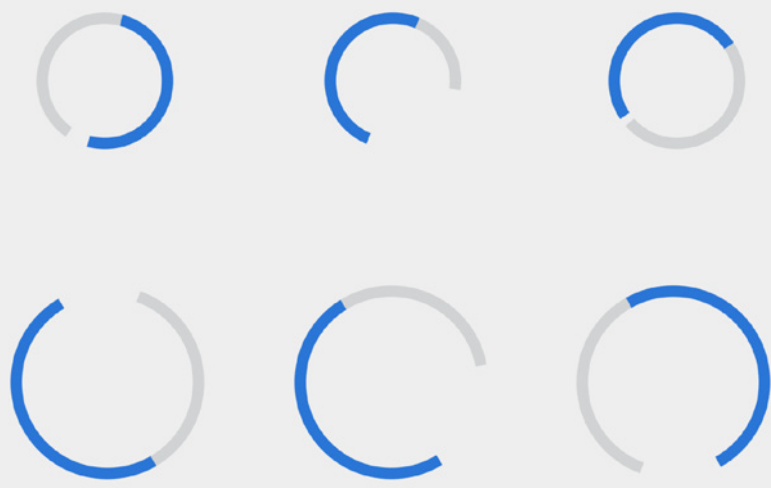

All that is now part of the web and used not only for attract user.

Effective animations can help user to understand content priority and logic.

It can be used for better accessibility and to keep user informed about progress.

SOCIAL MEDIA ANIMATIONS

SVG/GIF LOADERS

Animated Video

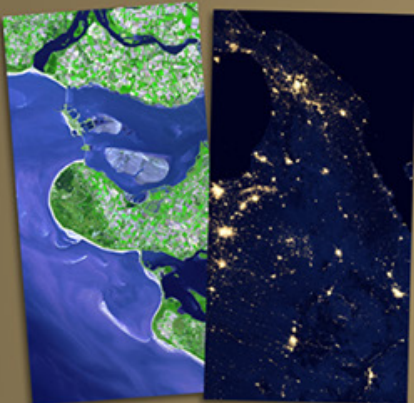

For much longer stories there is animated video. 2D or 3D graphics is enhanced by special effects and music/sounds. Often used as website intro, advertisement or just for fun.

airplane

Ingredients of video

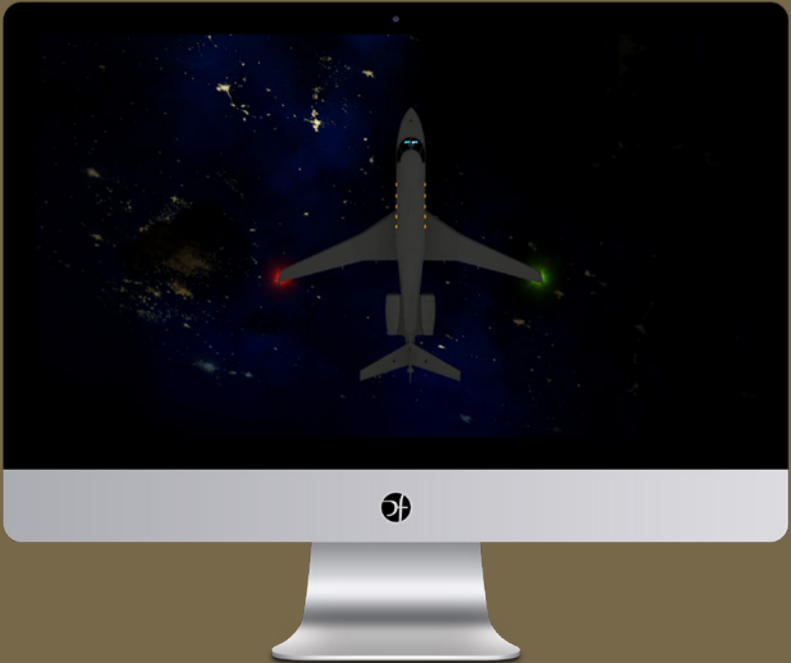

two big maps

few clouds

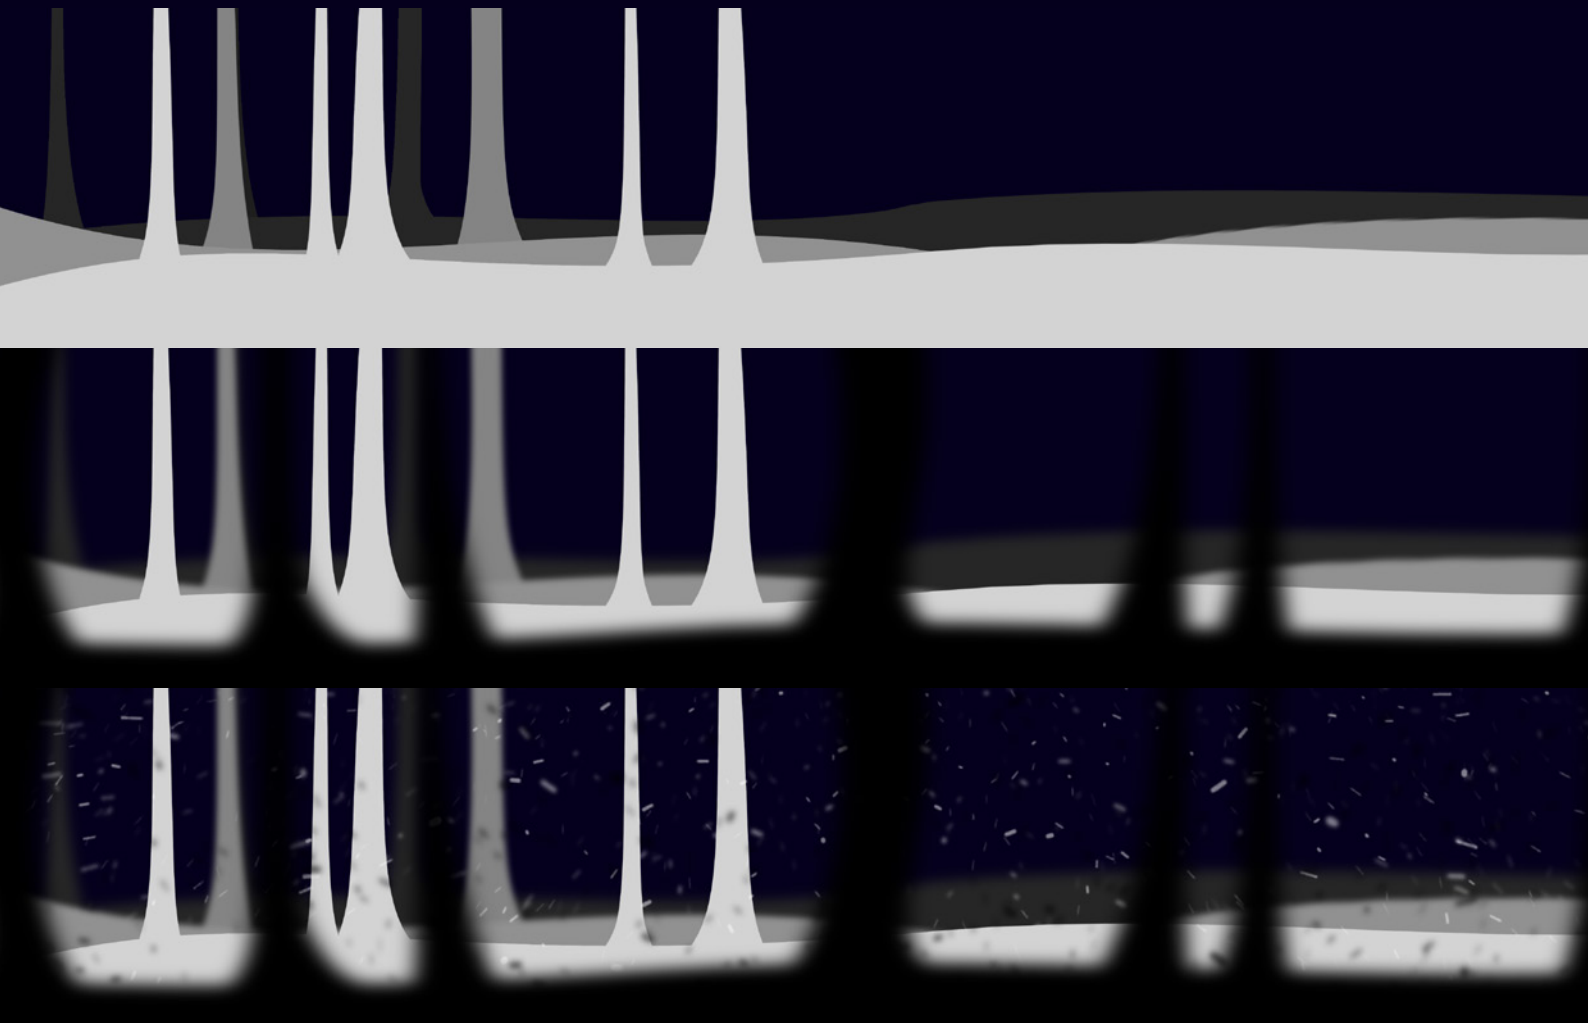

gulfstream g150

DECEMBER NIGHT

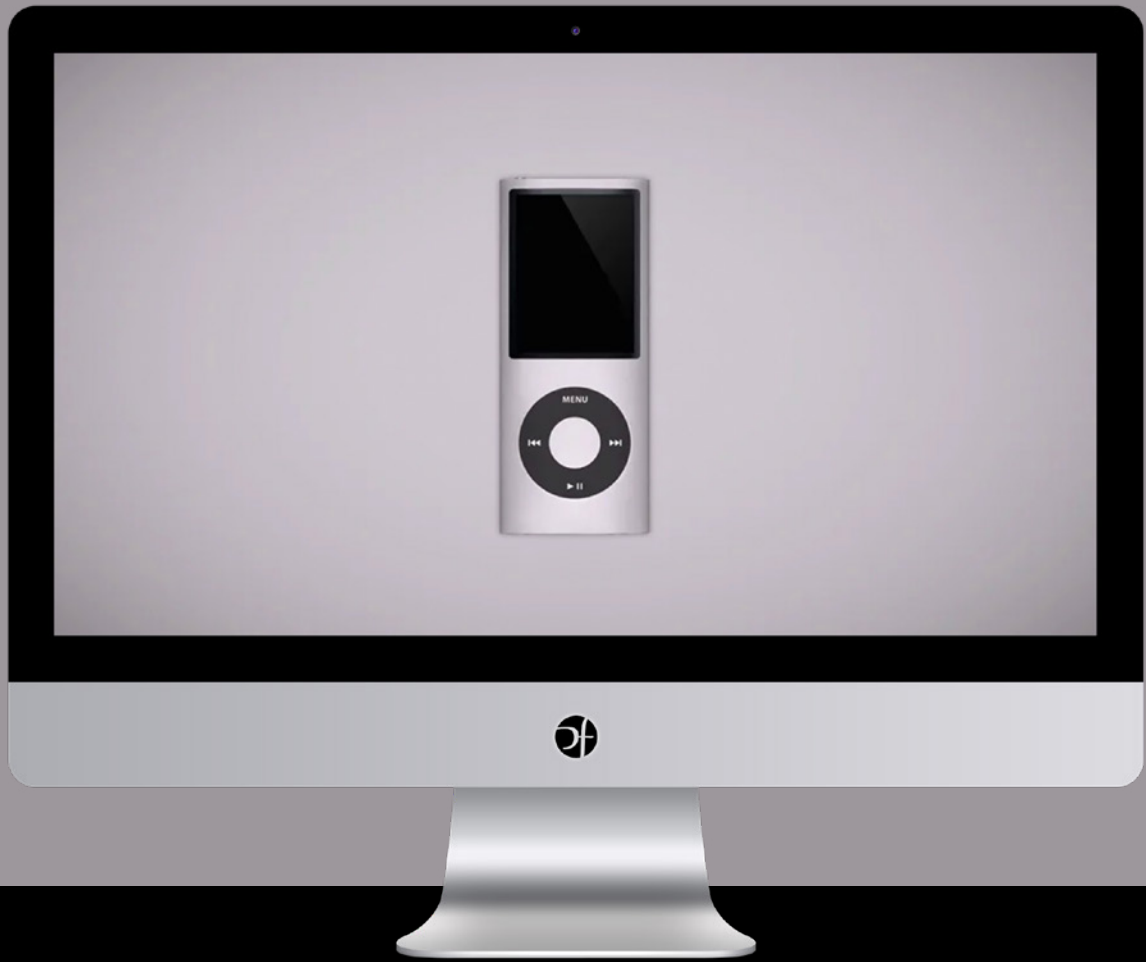

HAVE A NICE BIRTHDAY.

iPod Nano 8th.
